

WATER WORLD

Light blue and aqua marine Pazotti mosaic floor tiles give off a watery glow in this bathroom by architects Sam Crawford and Emily Fox. The effect is enhanced by natural light filtering onto the glossy white wall tiles and being reflected in the large mirror. The vanity features a 44 mm rotary cut hoop pine marine plywood veneer, with taps from Brodware's Eko range. The glossy 200 mm x 280 mm 'Rose White' wall tiles are from Tilecraft.
